200 Oceangate, 10th Floor
Long Beach, CA 90802-4416

Subject: Conditional Letter of Map Revision (CLOMR) 01-09-0393R validity

To whom it may concern:

If a newly published map (postCLOMR) includes no hydraulic, hydrologic, or topographic changes to the area subject to the CLOMR, then the pre (new map) CLOMR remains valid. If there are changes, then the CLOMR would have to be modified and resubmitted.

Specifically, the CLOMR in question (CLOMR 01-09-0393R) is still valid.

If you have questions, please contact Bob Durrin at 510-627-7057 or by EMAIL at Robert.durrin@dhs.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Gregor Blackburn", written over a horizontal line.
